

Appendix G

**Least Tern and Piping Plover
Observation and Nest Records in
Nebraska.**

Appendix G. Compilation of least tern and piping plover observations and nesting records within Nebraska, including the Platte River Basin

N. Platte: North Platte River; S. Platte: South Platte River; U. Platte: upper Platte (Platte downstream to Lexington); C. Platte: central Platte (Lexington to Columbus); L. Platte: lower Platte (Columbus to the Missouri River)

Data Sorted by River, Year, Location

Year	River	Location	LEAST TERN			PIPING PLOVER			Comments	Source
			# Pair/Nests	# Chicks	# Fledglings	# Pair/Nests	# Chicks	# Fledglings		
1866	-----	Lancaster County	yes						Observed least terns in June	Bruner et al. 1903
1893	-----	Near Omaha, NE	yes						LT breeding at "Cut-off Lake"	Bruner et al. 1903
1896	-----	Rainwater Basin	yes						LT nest on basin south of York, NE in 1896 and 1897	Tout 1902
1896	-----	State of NE	yes			yes			Specifically identifies Lincoln, and West Point, NE	Bruner 1896
1899	-----	Lincoln, NE	yes			yes			Observed at "Burlington Beach" lake	Hunter 1900
1900	-----	Sandhills lake				yes			Observed nesting at Trout Lake in Cherry County	Moser 1942
1902	-----	Sandhills lake				yes			Observed nesting at Trout Lake in Cherry County	R.A. Moser
1909	-----	State of NE	yes			yes			"Migrants and breeders"	Wolcott 1909
1917	-----	Capital Lake, Lincoln, NE				yes			1 male, and 1 female pp collected by C.A. Black at Capitol Lake may 12, 1917. Hastings Museum housed both specimens, the male was destroyed, and the female is on display at the museum	Hastings Museum display curator
1920	-----	Capital Lake, Lincoln, NE	yes						nesting on the shore of Capital Beach Lake where sand and gravel had been extracted	Ducey 1985
1922	-----	Capital Lake, Lincoln, NE	3	yes					see above	Pickwell 1925
1942	Unknown	Unknown				3			Dredged sand fill area, 10 adult pp observed, but only 3 nests located	Moser 1942
1944	Unknown	North Platte vicinity	yes			yes			May 21, 1944 N.O.U. member observations noted as being in the North Platte-Stapleton area	Neb. Bird Rev 12(2):31-39
1944	Unknown	Omaha vicinity	yes			yes			Piping Plover (4-30-44) and least tern (6-5-44) first dates observed for the season by N.O.U. members	Neb. Bird Rev 12(2):31-39
1957	Unknown	See comments	yes						1 female pp collected by Burt Neilson May 31, 1957. This specimen is on display at the Hastings Museum, and was collected in Nebraska, but the exact location is unknown	Hastings Museum collections curator
1857	Platte	at the Loup Fork	yes						Collected July 10, 1857	USGS Historical Data Cards
1820s	Platte	unknown				yes			Lewis and Clark, prior to the designation of the species in 1823	Ducey 2000
