The Platte River Recovery Implementation Program (Program) is soliciting written quotes for construction of a crane viewing blind at the Shoemaker Island habitat complex near Alda, Nebraska. Quotes shall include all materials and labor for on-site construction of the structure. The Program shall be responsible for clearing and leveling the blind site prior to construction.

Blind specifications include:

- Dimensions: 7'6" wide by 32' long.
- Structure materials:
 - Base: pressure treated 2X4 lumber base frame with 23/32' T&G subfloor
 - Walls: 2X4 framing (24" o.c.) with RBB OC plywood siding
 - Roofing: Shed style roof with OSB sheathing and metal roofing
 - Door: 36" exterior steel door with keyed lock
 - Interior: 24' 2X12 seat along rear wall and 2X4 shelving between studs at four locations
 - Viewing openings: river-facing wall will have window cutouts at varying heights and sizes to be determined at time of construction.
- Finishing: no paint or finish applied to interior or exterior

Interested parties must email written quotation to Jason Farnsworth (email above) no later than 5:00 pm central time on June 10th.
